Because Every Smile Matters — Yours and Your Pup's

Paw-some Pet Spotlight

International Dog Health Day – August 26

- Most dogs have 28 baby teeth and 42 adult teeth
- By age 3, nearly 80% of dogs have gum disease
- Daily brushing or dental chews can make a big difference
- Ask your vet about plaque-control water additives to fight tartar and stinky breath
- A healthy mouth = a happier, healthier pup

The Mouth–Body Connection

Your Mouth: The Gateway to Whole-Body Health

- Gum disease is linked to heart, diabetes, and brain health
- Mouth inflammation impacts the whole body
- Treating gum disease = protecting more than just your smile
- A healthy mouth is the start of a healthier you
- Regular dental visits can reduce medical visits by catching problems early

From paws to people, oral health is key

Oral Health Is Linked To Overall Health
